STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN, ALBERTA. THURSDAY, MAY 9, 1929

Whole Number 457

HUNDREDS of motorists who paid big prices for Big Six performance are turning now to Pontiac... the car that has introduced a Big Six into the low-priced field. Look at it and you'll see it's a Big Six... with big, beautiful, luxurious Fisher Bodies. Drive it and you'll know it's a Big Six... with big, big compression, six-cylinder engine, accuracy, balanced. Examine it closely and you'll find every desirable Big Six characteristic... big, new, dirt-and-weather-proof four-wheel brakes, Lovejoy Hydraulic Shock Absorbers, Spring Covers, Foot-controlled Tilt-ray Headlights, and dozens of other features. P.A.S.-232

PONTIAC Big SIX

E. H. Pidgeon, Stony Plain, Alta.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

Essex,

The Challenger,

Is proving to be a real Car, and is doing all that is claimed for it.

We ask you to drive and compare it with any other car.

Note the quick and smooth response of the motor. The speed and superb get-away.

The handling and riding quality are outstanding.

Don't take our word for it, but drive the car and prove it for yourself.

G. Oppertshauser.

LOCAL NEWS.

Mr Fred Ulmer and son Eddie arrived here on Friday from Vancouver, traveling via a Ford car. They intend going on to Wembley.

Messrs G Carmichael and Maclean, teachers in Telfordville district, were week-end visitors in Stony.

Mr Geo Pugh, Jasper, was a visitor here on Saturday.

The local bank is making another exchange of the employees. Mr Northwood, the popular paying teller, going down to Carmangay. His position here has been taken by Mr Storey of Carmangay. Mr Northwood's removal means quite a loss to our baseball team.

Meeting of Inga Council.

Inga Councillors held their regular monthly meeting at Stony Plain on Friday last, with all the members present and Reeve R C Howat in the chair.

Among other matters dealt with was the appointing of an official to re-assess all the lands in the municipality, the assessment to stand for the next five years. Mr Tyrrel of Duffield district, secured the appointment, at \$800 for the service rendered.

The matter of the control and eradication of weeds in the municipality was up for discussion, with Weed Inspectors Graden and Ibsen present. Mr Perry, agent for a "non-poisonous weed killer in powdered form," addressed the meeting. On the agent withdrawing, the Councillors discussed the advisability of purchasing a sufficient quantity for use in the Municipality the coming season. A committee was appointed to induce Spruce Grove Councillors to share the expense of purchasing a carload of this chemical for the use of both Municipalities.

United Church Notes.

The Ladies' Aid is serving tea and light supper next Saturday afternoon. The Spruce Grove church is now the pride of the congregation. All interior has been stained, a new carpet on the platform, new pulpit Bible, in addition to pulpit and chair.

Tennis Club Meets

A reorganization meeting of the Tennis club was held Tuesday night, with Pres. Oatway in the chair. Plans for the coming season were discussed. It was decided that a new net and new tapes be purchased. A new Executive was elected, consisting of: Pres. George Bryan; Sec.-Treas. Willard Storey; committee, Esther Wolfe, R Alton, Giles Clarke. The same fees and regulations as were in force last year were adopted. Various tournaments were planned, both within the club and with other clubs. It was decided that everyone interested should turn out at 7.15 to put the courts in shape. A cordial invitation is extended to all those interested in tennis to join the club and to help make this the best year in the club's history.

Radio—An Agency For Peace

The sittings now being held by the Royal Commission on Radio appointed by the Dominion Government to study the whole question of broadcasting, and make report to the Government as to best policy for Canada to adopt in the national interests of the whole Dominion, is having the effect of directing attention from the purely local and entertainment features of this latest of great modern discoveries and causing people to appreciate more fully the tremendous possibilities of aerial communication, both in a national and international sense.

While undoubtedly there is a feeling of regret in Canada that, because of natural causes, it is much easier for people in Western Canada to "listen in" on stations in the Central Western States than it is to "get" stations in Eastern Canada, and for Eastern Canadian listeners to receive the programmes broadcast from New York, Philadelphia, and other Eastern United States cities than it is for them to "tune in" on Western Canadian stations—a condition for which it is hoped the present Radio Commission can find some solution, the fact remains that a closer community of interest between Canada and the United States, and consequently a still better understanding, is being developed by means of the radio. And community of interest and understanding is the greatest of all bulwarks to Peace.

But to many in this country it will come as a welcome surprise to learn of the great strides made by radio in Europe and the effect it is having in promoting greater understanding among the diverse nationalities and languages of that war-afflicted continent. It is almost inconceivable that within less than eleven years of the signing of the Armistice ending the Great War, the radio should be used in Germany and England to teach the people, not merely school children but adults, the French language; that international "hook-ups" of Germany, Poland, Austria, Hungary, France, and other countries are being regularly carried out, so that people in Paris and Warsaw can listen to German concerts in Berlin and Hamburg, and the German people can enjoy the opera in Paris, or a great symphony orchestra in Vienna or Budapest.

There are some good people in Canada who still retain the old fashioned idea that it is unpatriotic, and liable to undermine British institutions in this country, if children are taught in our schools to speak and read French, German, or any language but English. In entertaining such ideas Canadians are far behind the times; they are not nearly so far advanced as they are in England and other countries where the learning of foreign languages is compulsory. If every Canadian child, whether of British or French descent, was obliged to learn both English and French, Canada would be a generation become more powerful, influential and prosperous. It would open to our people the rich literature of both races; it would give us greater prestige among all nations; it would help to promote our export trade in all the markets of the world. In this Canada, by reason of its two great races, has an opportunity no other nation enjoys, yet we are not only neglecting it, but many people urge that it would be disloyal to our British connection to encourage it. Yet Britain herself is doing it.

It is predicted that within three years, five years at the most, Canadians will, through the development of national broadcasting at home, and the use of the beam system of wireless across the ocean, be able to sit in their homes and "listen in" on the finest programmes in the world broadcast from London, Paris, Berlin, Vienna, and other European centres of culture, art and music.

We can now speak with Europe by telephone from the heart of Canada's prairies, and the day is fast approaching so close in a position to know authoritatively state, when by radio we will be in more or less constant communication with Europe, receiving the best they have to offer in public addresses, vocal and instrumental music, and the important news of the day. In turn, Canada will be brought equally close to them. And, in all probability, "seeing" Europe and European happenings through the instrumentality of the radio will move or less rapidly follow "hearing," just as, in reverse order, the "talking" picture has followed the silent movie.

And these things are all to the good, in the cause of world peace. As we know people and understand them our prejudices and suspicions are removed. We learn they are human just like ourselves; that they have high ideals and are inspired by lofty motives; that they love the things we love, and hate the unclean, the ugly, the vicious; just hate them. As we come to understand their problems, difficulties and aspirations, and they come to understand ours, mutual sympathy will develop, followed by a desire for co-operation, rather than antagonism.

It is only so, through mutual understanding, that permanent world peace can be maintained and the maximum of true progress be made.

FLU Germs Breed In the Throat.

First Appear As A Common Cold, But Gain Tremendous Headway In Six Hours

SOME SIMPLE PRECAUTIONS AGAINST INFLUENZA

Simple precautions taken now will enable you to fight deadly "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nervilleine. Half a teaspoonful of Nervilleine in water makes a most efficient gargle. The germ-killing properties of Nervilleine quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure to rub the neck and chest with Nervilleine. Every drop of it will rub in, and out will come the congestion.

Of course it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding germs. This combination treatment of Nervilleine and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Measuring Lightning Flash

No Part Of It Ever Lasts For Appreciable Time

A lightning flash takes about one-seventh of a second to complete itself and no part of it lasts more than approximately one-thirtieth of a second. This is the first time in history that the speed of a lightning flash has been measured. It has also been proved that lightning starts from the clouds and the ground at nearly the same instant, and approximately one-seventh of a second later the two ends unite in mid-air. These facts were determined by Dr. C. U. Boys, a British physicist, who has been attempting hundreds of photographs for the last twenty-six years, until a stroke of lightning in New York at last gave him this information.

Sore Corns Drop Off If You USE "Putnam's"

When you notice any sign of callous on the feet or toes—that's the time to paint on a few drops of PUTNAM'S CORN EXTRACT. Do this, and you prevent corns. No matter if the corn is hard or soft. Let it be on top or between the toes. Putnam's will remove it without pain. Insist on PUTNAM'S CORN EXTRACT. It breaks the work-an-sore roots out of the corn, quickly and without pain.

A Young Linguist

George Grand, 4, of Vader, Wash., is a linguist of ability. He speaks English or Croatian with equal facility. He was born in America, but his parents came from Dalmatia. He reads the letters of the alphabet in both English and Croatian, can count to 20 in both languages, and converses freely.

RHEUMATIC PAINS

Cannot Be Rubbed Out—The Trouble Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or on the affected part, but none of all the rubbing the pain remained. This blood and rheumatism come together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be remedied so that the blood is built up, and when the poisons in the blood are overcome and driven out, rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Nova Scotia, who says:

"For some years I was so badly troubled with rheumatism that I could hardly walk and suffered great pain. I had medical treatment, but did not get much relief. Then I decided to try Dr. Williams' Pink Pills, and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

From July 14 to 17, 1911, 88.15 inches of rain fell at Baguio in the Philippine Islands. More than 45 inches fell on one day.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence who is infested with worms can take this preparation without a quail of the stomach, and will find in it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

The Teacher—You have failed in geography again.

Bobbie—No'm. You only ask me did I know the capital of Minnesota and I said I didn't which, was true.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

Forty automobiles can be driven abreast at low tide on the beach of Jacksonville, Fla. The sand is as firm as on a paved street.

Neuralgia succumbs to Minard's Liniment.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

New Death Dealing Ray

Electrical Driver Recently Invented Develops Three Million Volts

H. H. Nelson-Smith, engineer on the staff of the Pacific Gas and Electric Company in San Francisco, said a "death ray" device had been invented by J. B. Martin, electrical engineer of San Francisco. The new device, he said, was capable of developing three million volts.

The Martin machine, Nelson-Smith stated, is housed "somewhere in San Francisco," but its exact whereabouts is being kept secret. The invention has been working in co-operation with the electric company.

"Anyone who got in the path of the ray would be instantly snuffed out, the chemical composition of his blood would be changed and the life cells disintegrated," he said.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight, and it can be purchased almost anywhere.

Life is a grindstone, and whether it grinds a man down or polishes him up depends on the kind of stun he's made of.

No surgical operation is necessary in removing corns if Holloway's Corn remover be used.

Einstein should make a good train caller or bellhop, as nobody can understand what he is talking about.

Minard's Liniment relieves pain.

More than 50,000,000 rabbit skins are made into felt hats in the United States every year.

So Many Home Uses!

Keep foods fresh longer by covering them with Para-Sani

Use Para-Sani to keep Dad's lunchbox fresh

Keep the freshmen in sandwiches prepared for the party with a covering of Para-Sani.

YOU'LL FIND A hundred vital, saving uses for Para-Sani Heavy Waxed Paper in your home. Comes in handy, sanitary, knife-edged packages. For less exciting uses: "Centre Pull" Waxed Tissue (flat sheets). At grocers, druggists, stationers.

HUNTER-MARTIN & CO., REGINA, SASK.

Grain Commission Discovers Many Matters That Should Be Rectified To Good Advantage

The appointment of the Saskatchewan Commission of Inquiry was the result of accumulating complaints and of a combination of circumstances last fall. Wheat was down in price, the yield and quality of the grain in a large part of Saskatchewan had suffered on account of frost, and there was stricter grading with a view to protecting the reputation of Canadian wheat in the export market. Increasing complaints culminated in a demand for the reorganization of the Board of Grain Commissioners, and the same demand was heard in Alberta and Manitoba. With a view to getting the facts and clearing up the situation as far as possible, the Saskatchewan Government appointed the commission of inquiry.

There have been many commissions appointed by the provincial and federal governments to investigate the handling of the grain. They have all suggested improvements and an incidental result has been the education of the farmers on the grain question through reading the evidence taken and the reports made by the commissions. While there may be a great deal of misunderstanding among some of the farmers, there are others who have an intelligent grasp of their own business that is not surpassed by that of the farmers of any other country. Improvements in the methods and system of handling the grain are, also, constantly discussed by the committee on agriculture at Ottawa, and a great deal has been done in past years toward protecting the interests of the farmers.

The present commission in its interim report, finds many minor matters that it thinks should be rectified, and it entirely agrees with the complaint of the farmers that the Grain Board is too far removed from them. The Board is given credit for good service in many ways, and it is recognized that it was hampered by the conditions under which it was working. Under the Grain Act, its headquarters were at Fort William, and it had an inadequate staff of inspectors to deal with complaints throughout the West, apart from the question whether a board of three commissioners could properly cover so wide a field. The commission recommends the enlarging of the board, the locating of the head office wherever the board thinks best, and the maintenance of offices at Fort William and Vancouver and in each of the Prairie Provinces, with enough inspectors to deal adequately with complaints. The personal factor in the supervision of the handling of the grain is stressed by the commission. It urges the selection of well-qualified men for the Grain Board, with the Chief Commissioner a man of outstanding ability. Increasing the remuneration of inspectors to prevent so many being drawn off by the pools and by private companies, thus lowering the efficiency of the staff, is recommended. And it is proposed that elevator agents throughout the West should be licensed, with power to the Grain Board to cancel licenses, in order to have better assurance of the competence and reliability of the men receiving the grain at the elevators. The report states that while most of the agents are satisfactory, there

are some who are not, and should not be engaged for the work.

The report says that the farmers are not satisfied that they feel that they would get a better price for their grain but for what happens to it after it leaves their hands. The report also says that the farmers are not getting the fullest return possible for their product.

The Committee on Agriculture at Ottawa, which has been discussing the grain question for weeks, particularly grading and mixing, will receive this report of the Saskatchewan Commission, and some of its recommendations at least will doubtless be included in their report to Parliament and result in legislation that will better protect the interests of the farmers and remove some of the cause of complaint—Manitoba Free Press.

THE CHIC SPORTS TYPE

The chic sports dress of feather-weight woolen in grey tones, uses black bone buttons to emphasize diagonal line of bodice belted at normal waistline. The skirt has plaits each side of centre, forming box-plait to carry out vertical line. Style No. 461 can be had in sizes 16, 18, 20, 22, 24, 26, 28, 30 and 42 inches bust. Checked silk in red and white gingham patterns is ultra-smart for now and later for resort. A navy blue silk crepe with dots of chartruse shade is sportive and wearable. Plain lipstick red silk crepe, printed cotton foulard in foliage green tones, navy blue wool crepe and angora, wool jersey in almond green will make up attractively for all-around wear. In the 36-inch size, 4½ yards of 40-inch material is required. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

CAPTAIN E. GILLAM

who for many years has been piloting vessels of the R.C. Coast Steamship service, in and around the west coast, has been transferred to captain of the Princess Norah, newest ship in that particular service. He first took the bridge of the Norah when the Vice-regal party were guests of the Canadian Pacific Railway on a four-day cruise up the west coast of Vancouver Island.

Record Price For Calf

Boy Sells Calf At Calgary Spring Livestock Show For \$2,820

A record price was established at the recent Calgary spring live stock show when the first calf in the boys and girls' calf feeding competition sold for three dollars a pound. This calf, an Aberdeen Angus, shown by Harold Richardson, of Bowden, Alberta, was an outstanding winner in its class. It was purchased by a Calgary butcher, and at a weight of 940 pounds, brought its young owner the handsome return of \$2,820.

Canada, with one tenth of the world's coal deposits, is in an enviable position, according to Sir Arthur Duckham, head of the British mission to Australia on Empire Trade.

Nitroglycerine, the powerful explosive, is also one of the most potent heart stimulants known.

Number Of Titled Canadians Is Found To Be Now Approaching Vanishing Point

Peace River Land

For Homesteading

Former Forest Reserve Near R.C. Boundary To Be Thrown Open

About 6,000 homesteads or approximately 1,000,000 acres in the Grande Prairie District, Peace River, Alberta, and in the Peace River Block in British Columbia will shortly be thrown open for entry, according to information reaching the Colonization Department of the Canadian National Railways here. This area includes land formerly held as forestry reserves lying between the sixth meridian and the British Columbia boundary line and bounded on the north by the south line of township 81 and on the south by the Wapiti River. An additional area will also be surveyed and thrown open to homesteading. It is expected that entry may be made for some of these lands by about April 15th.

Making Scientific Hay

Another Use To Which Electricity Is Being Directed

Making hay without sunshine is one of the 200 uses of electricity developed by Borlase Matthews, pioneer in the application of electricity to the uses of agriculture. He has an "electro farm" of 600 acres in Sussex, England, and intends launching a scheme for rural electrification of Lincolnshire over an area of 1,250 square miles, with a capital of \$5,000,000 for which he has been granted a special order by the electricity commission.

Matthews is convinced that the farmers of Lincolnshire are keen to develop the use of electricity, examples of which he quotes as electric threshing, electric plowing, electric churning and use of ultra-violet rays for poultry and pigs.

Farmer A—Have you finished plowing the ten-acre field?

Farmer B—Yes.

Farmer A—Then you can attend to the harrowing details.

KING AND QUEEN AT BOGORO

During a band concert given in front of Craigville House, near Bogoró, the King took occasion to walk down to the seashore to say a few words to the crowd collected there. The loud cheers that greeted him were interspersed with shouted good wishes for his further recovery. That both the King and Queen were delighted by the welcome accorded them may be surmised from the smiles seen in this picture which is one of the first to show the King walking after his long illness.

The number of titled Canadians is gradually diminishing. Slowly and inexorably time is rounding off the work which the Canadian parliament began in the spring of 1918, and eventually, save for descendants of the few hereditary peers resident in this country, a generation in the not remote future will see Canada completely divested of men upon whom the sovereign had conferred titular distinctions.

Knighthood has not flowered in the Dominion for more than 10 years. And only a few weeks ago the House of Commons gave emphasis again to their resolve that within the lifetime of the present parliament at least, there was little prospect of Canada's return to the peerage.

In 1916 Canada was represented in the peerage by eight persons; of baronets and knights there were in all 95. Since then 10 titles were conferred on soldiers and military administrators, bringing the total to 135. In the present year of grace Canada's representation among the peers of the realm has been reduced to five barons; there are eight baronets and 71 knights—a total of 84 and a diminution of 29 in the past decade.

These figures are recalled by the recent debate in the House of Commons when the effort was made to reopen the question of titles. C. H. Cahan, Conservative member for St. Lawrence-St. George, Montreal, sponsored a resolution which would have had the whole matter made the subject of enquiry by a parliamentary committee. Explaining his purpose, Mr. Cahan said it was desirable to remove the anomaly which arose from the fact that while in 1918 parliament banned the bestowal of titles on Canadians by His Britannic Majesty the same inhibition did not extend to foreign sovereigns. Out of this had developed the curious situation of alien monarchs exercising with respect to Canadians a prerogative denied to King George himself.

Mr. Cahan's resolution had the support of Premier W. L. Mackenzie King and Hon. R. B. Bennett, leader of the opposition. But in spite of this the rank and file of House of Commons voted overwhelmingly against it and for the time being the "satus quo" was maintained.

The abolition of titles in Canada was one of the first offspring of the Union government, following the khaki election of 1917. It was on April 8, 1918, that W. F. Nickle, Union member for Kingston, first introduced his famous resolution praying that "His Majesty may hereafter be graciously pleased to refrain from conferring hereditary titles upon his subjects domiciled or living in Canada." Extreme democrats were disgusted with this; they thought the resolution was not sufficiently watertight. A champion cause in the person of the late R. L. Richardson, another Unionist from Springfield, Man., better known as "Fighting Bob" of the Winnipeg Tribune. Mr. Richardson moved to eliminate the word "hereditary," thus placing a ban on titles of any sort.

It was at this stage that the then Prime Minister, Sir Robert Borden, intervened. To the amazement of the House of Commons, he announced that on March 22, 1917, prior to the introduction of the Nickle resolution—the government had passed an order-in-council which had been submitted to the British Colonial Secretary. This requested "that no honor or titular distinction (having those granted in recognition of military service during the present war or ordinarily bestowed by the sovereign 'proprio motu') shall be conferred upon a subject of His Majesty resident in Canada, except with the approval and advice of the Prime Minister of Canada."

Sir Robert made the matter one of confidence. The debate was warm, for many arose to defend this ancient institution. One of its severest critics, however, was Sir William Laurier himself. The aged Liberal chieftain said: "I am quite prepared, if we can do it without any disrespect to the Crown of England, to bring our titles to the marketplace and make a bonfire of them."

"You are top of your class, so tell me what that is!"
"It is a capital 8"—Ernest Cates, Yverdon.

BEAUTIFUL CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria. At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or diarrhoea checked. A vegetable product, a baby remedy meant for young folks, Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it. It may spare you a sleepless, anxious night. It is always ready, always safe to use, in emergencies, or for everyday ailments. Any hour of the day or night that baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Staining Shingle Roofs

Use a good shingle stain. Before beginning the work, see that the shingles are dry and clean. As a matter of economy it is better to dip shingles in milk before laying them. Dip them in and out as quickly as possible and wipe them off by rubbing across a stick covered with burp. Then allow them to drain off in a dip trough. They should be stained for only about two-thirds of their length. Stain the exposed ends only. Paint is best for old, weather-beaten shingles, blackened by age and exposure. The priming coat should be prepared as directed for house painting and should be brushed out well with careful attention to the ends of the shingles. The second and finishing coat should be applied as it comes from the can.

Minard's Liniment—good for tired feet.

Smile—Her face was like five miles of detour.

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. P. Averill, 136-12th Ave., Calgary, Alta., writes:—"I was bothered so much with my heart I could not sleep. I would waken up in the night screaming, and my heart would start pumping and pounding. A neighbor lady told me to try

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

Price 50c a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1784

Laying and Preserving Linoleum

The ideal method of laying linoleum is to cement it over deadening felt paper, which should first be pasted to the floor with any standard make of linoleum paste. This overcomes bulging and stretching, or opening up of seams and cracks along the edges. It also prevents water from getting underneath the linoleum and in that way prolongs the life of the flooring.

Linoleum laid in this manner becomes a solid, permanent, elastic floor. It cannot bulge or stretch. The felt paper foundation absorbs all expansion or contraction that may take place in the wood floor and makes the linoleum more durable. It also allows the linoleum to be removed without difficulty or damage should the necessity arise.

The most approved manner of treating linoleum has been found to be waxing. The wax should be carefully rubbed on and the floor polished like hardwood. An occasional treatment of this kind will keep the linoleum in an immaculate condition.

A damp cloth removes all soil from the waxed linoleum and it will be found that scrubbing is entirely unnecessary.

In case there should be obstinate marks of soil on waxed linoleum, they can be removed with a pad of fine steel wool without scratching or changing the linoleum itself.

Varnishing is best for printed linoleum, as it brightens and preserves the original pattern and makes the linoleum easier to clean. A coat of good varnish or white shellac will also preserve cork carpet.

GOOD IN EVERY WAY

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicine that all mothers praise as good in every way—one that will quickly banish the minor ills of babyhood and childhood is the medicine to keep in the medicine chest; to always have on hand in case of emergency. Such a medicine is Baby's Own Tablets—they are helpful at all times. They are a mild but thorough laxative which by regulating the bowels and stomach banish colds and simple fevers; correct constipation and indigestion; relieve colic and diarrhoea and make the cutting of teeth easy.

Thousands of mothers use no other medicine for their little ones. Among them is Mrs. J. H. Bromley, Westmeath, Ont., who writes:—"I have known that whenever any of my three children were ill I always use Baby's Own Tablets and have found them good in every way. I would not be without the Tablets and would also like your little booklet 'Care of the Baby in Health and Sickness.'"

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Female Pied Piper

Woman in London Declares Rats Are Charming Creatures

A woman's love for rats has led to a certain quarter of London being so overrun with the pests that official action is to be taken. This female Pied Piper declares that rats are charming creatures and she places food in her garden for them every morning and evening. Neighbors have protested so loudly that efforts are to be made to capture the rats by smothering them out. There is nothing under the existing law to prevent persons feeding any kind of animals or vermin on their own ground.

Tangled Titles

Fletcher: "How did the jury come out in that Army Post case?" Barker: "They disagreed on the question of titles."

Fletcher: "What do you mean?" Barker: "They said they couldn't hold a Colonel in a Major crime arising from a General riot occasioned by a Private quarrel!"

London has more than 20,000 bottles—English policemen.

Minard's Liniment for cuts and bruises

SUNDAY SCHOOL LESSON

MAY 12

THE EARLY MINISTRY OF JEREMIAH

Golden Text: "We must obey God rather than men."—Acts 5:29.
Lesson: Jeremiah 1:1-10; 6:10, 11; 13:18; 23:21-24.
Devotional Reading: Psalm 28:1-7.

Explanations and Comments

Jeremiah's Call and Consecration, 1:1-10.—Jeremiah was the son of Hilkiah (not the Hilkiah who found the book of the law, our 1st lesson), a priest in the little town of Anathoth, near Jerusalem. Jeremiah's name means "appointed by God," and his father's ("Jehovah is my portion"), are tokens of the family's loyalty to the God of Israel, "at a time when the outburst among the Jews of a very different class of personal names betrays on the part of many a lapse from the true faith, and when the loyal remnant of the people were being persecuted by King Manasseh." In the thirteenth year of Josiah's reign (about 625 B.C.), Jeremiah became conscious of a divine call to the prophetic office. It is natural to understand that Jeremiah had long meditated upon his country's sin, had felt impelled to witness against them, but was so reluctant to undertake the task. The inward struggle which took place in his sensitive and shrinking heart, was somewhat different from his ordinary consciousness made him certain that he was destined to be a prophet. He was told he tells in the form of a dialogue between God and himself.

"Jeremiah said, 'Behold, I know not how to speak; for I am a child.' Jeremiah was not a child in years, but in consciousness of ability. He distrusted himself at the moment of his call. Once it was a Moses, then it was a Gideon, then an Isaiah, and now a Jeremiah, all of whom re-echo the plaint of their own inability. But, though their first reaction was like that of Hamlet when he cried:

"The time is out of joint;—O, cursed spite! That ever I was born to set it right."

yet with them all there was no delay in rendering themselves more fit for their tasks.

"There is a lesson here for all who feel in any degree what tyranny of their outward life. There are hard facts against which we chafe and fret. We are not to tasks which we would fain refuse, or we are placed in surroundings which we think unsuitable. We are all tempted to turn to the easy way of escaping the burden. We can learn from Jeremiah the paramount claims of duty. If it is the will of God that you must tread a path that you choose not, from which the weak heart shrinks, know that the blessedness promised by Christ is yours, and cherish the thought of a closer communion with Him who has made perfect through suffering."—Hugh Black.

Jehovah speaks: "Say not, I am a child; for to whomsoever I shall send thee thou shalt go, and whatsoever I shall command thee thou shalt speak. Be not afraid because of them; for I am with thee to deliver thee." Jehovah put forth His hand and touched my mouth," thus Jeremiah years afterward expressed the thought of how burning were the words of Jehovah which seemed to come to him.

Requisite On the Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil, it is equally effective for colic it far surpasses anything that can be administered.

Northern Air Ports

Settlements in Northern Manitoba To Have Air Mail Service

Manitoba's northern settlements of Oxford, Goddard, and Island Lakes will be added to the growing chain of northern air mail points of call, Hon. P. J. Veniot, postmaster-general, announced in the House of Commons.

Mr. Veniot stated that arrangements had been completed for the conveyance of mail to and from these northern points once a week by the aeroplane of the government forestry patrol at Norway House, at the north end of Lake Winnipeg.

Australia supplies one-fifth of the world's supply of wool.

Floor Coverings

Next to the walls and ceiling, the floor presents the largest area in the room, and consequently its covering should be well thought out and carefully selected.

The floor, as well as the ceiling, is a plane which holds the four walls of the room together. While the walls form the background for furnishings, the floor is the foundation. A good foundation is always essential to any well-designed decorative plan.

Linoleum floors are attractive, resilient, shock-absorbing, durable, warm in winter and cool in summer. Waxing linoleum gives it a softer, smoother texture and preserves it indefinitely.

For the average room, a rug with a plain ground and a neat border, or neat all-over pattern of floor covering, is more desirable than one with a decided pattern.

Large and bold patterns have a decided tendency to make the room look smaller. The patterns are apt to jump and as the ideal floor covering furnishes the foundation for furnishings it must be made to keep its place on the floor. When there is a great deal of furniture, a boldly figured floor covering gives a confused appearance to the room and destroys its restful, harmonious appearance.

Boldly patterned rugs usually come in strong colorings, and this also makes them exceedingly difficult to fit into a soft, harmonious color scheme.

Figured floor coverings, however, have their place. In rooms which are sparsely furnished or where the furniture is of a light and simple type, they add to the "furnished" appearance of the room. That is, they take away bareness. In large rooms which are sparsely furnished, figured rugs are particularly advantageous.

In dining rooms, it is usually preferable to have a figured floor covering, as it does not show soil or stain so quickly as plain floor coverings. In bedrooms where the furniture is of a light type, a figured floor covering adds to the comfortable appearance of the room. In sleeping porches, enclosed porches or breakfast rooms, where the furniture is usually plentiful, either tile effects or a bold figured floor covering adds greatly to the finished appearance of the room.

It is a wise plan when a highly figured floor covering is used, to hangings or upholstery material in a plain color or in a neat and unobtrusive all-over pattern. On the other hand, if the hangings or upholstery is figured, plain floor coverings are best. Too many figured patterns in a room create the feeling of motion and the effect produced lacks restfulness. Too many plain surfaces, on the other hand, tend to make a room look bare and uninteresting. Some figured material should be used in every room, but it should be balanced with a proportionate quantity of plain material or surfaces without design.

In selecting a figured pattern, the colorings must be considered first. For general use, strong or vivid colors should never be selected. Small all-over patterns are, in most cases, preferable to large sprawling ones. The tone of the floor covering should

Cuticura Heals Face Disfigured With Itchy Pimples

"I had pimples all over my face. They were hard, sore and red and some of them were large and others small. Some of them were ferred and scaled over, and itched and burned causing me to scratch. Scratching caused eruptions and the irritation prevented me from sleeping. They disfigured my face for many weeks. I tried different remedies without any results. I began using Cuticura Soap and Ointment and it was only a few weeks before my face was completely healed, after using two boxes of Cuticura Soap and one box of Cuticura Ointment." (Signed) Miss Harriet Hamilton, Box 772, Yarmouth, N. S.

Make Cuticura Soap and Ointment your every-day toilet preparations and have a clear, sweet skin, soft, smooth hands and a healthy scalp with good hair.

See Soap, Ointment and 40c. Tubes 50c. Sold Everywhere. J. C. Watson Company Limited, Montreal. (In Quebec, J. C. Watson Company Limited, Montreal.)

Cuticura Shaving Stick 25c.

always be deeper than that of the walls or furniture, as the ground we walk on is always darker than the sky or the landscape. Light-colored floor coverings are exceedingly difficult to fit into a harmonious scheme.

Many Varieties Of Bananas

Although most of us know only two varieties of banana by sight, there are numerous others, the Philippine Islands claiming fifty-seven, Malay, thirteen, Spain, ten, and Burma, eight.

CENSURE MOTION IS DEFEATED BY MAJORITY OF 24

Ottawa.—The House of Commons defeated another want of confidence motion involving censure of the postmaster-general. This time the amendment, which, like its predecessor, was moved by H. A. Stewart, Conservative member for Leeds, was defeated by 24 votes.

It was a general amendment declaring that "the administration of the post office department by the present postmaster-general has been characterized by inefficiency, disregard of the provisions of the civil service act, the post office act and other statutory authority, and merits the disapproval of this House." Mr. Stewart's former amendment, moved a few days ago, involved censure of the postmaster-general in connection with the appointment of a postmaster at Simcoe, Ont., it was defeated by 27 votes.

In the division today, the Conservatives carried with them in support of the amendment the majority of members of the U.F.A. group in the House, Liberals and Liberal-Progressives united in opposition to the amendment.

Votes recorded in favor of the amendment, numbered 68, and against, 92.

In moving his amendment Mr. Stewart said facts had been brought out which had started the country. The whole background of the matter was the civil service commission and the attitude of the postmaster thereto. From October 1, 1926, to February 1, 1928, the postmaster-general has dismissed 98 postmasters, and from February, 1928, to April, 1929, eight more dismissals had been made.

In 32 cases of appointments by the commission, rejections had been made by Mr. Veniot. In some cases returned soldiers had been rejected in favor of civilians. He had dismissed for petty shortages men and women of the postal department all over Canada, but in the case of an inspector who it was shown had taken funds improperly, Mr. Veniot had not only increased his salary, but had given him an higher responsibility in office. The postmaster-general had impaired the efficiency of the civil service commission, and his attitude toward it was akin to contempt.

In reply, Mr. Veniot declared Mr. Stewart had omitted to point out in what way his administration was inefficient, or in what manner he had violated the civil service or any other act.

It was charged, he added, that he had disregarded certificates issued by the civil service commission. That was correct. But he had done so only for valid reasons, and was given authority to do so. He had only done his duty, said the postmaster-general, as head of the postal service of Canada.

There had been charges which questioned his loyalty. These were unjust, Mr. Veniot said.

Need Coal Agreement

Geneva.—The economic committee of the League of Nations, which has made exhaustive investigation of the world crisis in the coal industry, reported that international agreements between producers concerning output and markets must be made, if there is to be hope for improvement. A similar conclusion was recently reached by experts on the sugar situation.

Loyalty Of Acadians

Ottawa, Ont.—In replying to the criticisms leveled against him in the House of Commons, Hon. Peter Veniot, in a spirited speech dwelt on the loyalty of the Acadians of which he was one, to the British crown. He did so, he said, because his loyalty had been attacked by certain newspapers.

Hughes Goes To Geneva

New York.—Charles Evans Hughes, former secretary of state, sailed on the "Mauretania" en route to Geneva to take up his duties as judge of the world court, May 15.

W. N. U. 1784

Rioting In Berlin

Communists Suffer Casualties In May Day Battle

Berlin.—Communists in an attempt to "conquer the streets" for May Day, caused an ugly riot in the working class quarter in northern Berlin. They created barricades, using street repair material, and held off police with rifle and pistol fire until armored cars forced the obstructions and enabled the authorities to clear out the surrounding houses.

At midnight the casualties for the day had mounted to eight dead and 78 seriously wounded. Hundreds of others suffered bruises from missiles or policemen's clubs.

The rioters erected barricades in the main thoroughfare of the Pankestrasse and its side streets. The police charged them repeatedly with batons until the commanding officer realized that his force was too weak for these tactics and ordered his men to open fire. Then armored cars were brought up by the police and finally captured the barricade.

Opening Canadian Legation In Tokyo

Hon. Herbert Marler Will Take Up Duties As Minister

Ottawa, Ont.—It has been announced from the department of external affairs that Hon. Herbert Marler, before undertaking his duties as Canadian minister to Japan, is making a short visit to England. In the meantime, arrangements are being made for opening the Canadian legation in Tokyo. Mr. Hugh L. Kenney will be appointed first secretary and Charge D'Affaires until Mr. Marler's arrival in Japan, and James A. Langley, Canadian trade commissioner in Japan, will also act as commercial secretary of the legation. A third appointment will be made during the summer.

Dr. Kenney was born in Toronto, but has resided from an early age in Vancouver. He is a graduate of the University of British Columbia and of Clark University, Iyemasa Tokugawa has been appointed by the Japanese government as its representative at Ottawa.

Canadian Press Meeting

Officers Are Elected At Annual Gathering In Toronto

Toronto.—The annual meetings of the board of directors and the members of the Canadian Press, the co-operative news association of the daily newspapers of Canada, extended over three days, were concluded by the election of officers for the year as follows:

Honorary president, E. Norman Smith, Ottawa Journal; president, John Scott, managing director of the Toronto Mail and Empire; first vice-president, M. E. Nichols, Winnipeg Tribune; second vice-president, Henri Gagnon, Quebec Le Soleil.

J. F. B. Livesey, continues as general manager and secretary.

With a view to giving increased representation to the French language, daily newspapers of Quebec and also to the western provinces, the annual meeting enlarged the board of directors from 15 to 21.

Italian Arrested For Killing Chancellor

Assassinate Official When Application For Documents Was Refused

Brussels, Belgium.—While walking along a street, Alfonso Vrena, chancellor of the Italian legation in Luxembourg, was shot and killed.

His assailant, who was arrested, was an Italian cobble, named Gino, 29 years of age, a native of Massa Carrara, who recently settled in Luxembourg. He had applied to the legation for certain documents, but his application was refused.

Punished For Native's Death

Pretoria, South Africa.—For the first time in many years a white farmer was flogged for injuring a native. Jack Nafte, who tied a native employee head downward by the legs from a tree and lashed him so severely that he subsequently died, was sentenced to seven years at hard labor and the farmer received ten lashes in the Pretoria jail.

WESTERN PILOT

Louise Burka, a student with Great Western Airways, Ltd., is believed to be the first woman pilot in Western Canada to take a passenger up in an aeroplane.

Aviators Found Dead

Two Australians Meet Fate In Search For Lost Southern Cross

Sydney, N.S.W.—Suffering agony from thirst and exhausted by desperate efforts to take off from the ragged ground where they landed, Robert Hitchcock and Lieut. Keith Anderson of the aeroplane Kookaburra died some time either on or after April 12.

The grim story of the fate of the two men who had taken part in the search for the aeroplane Southern Cross, was revealed in the notes of a diary scrawled on the rudder of their plane.

First definite news of the death of the men came with the report from a land party that had made its way over the rough country to the stranded rescue plane.

Canoe Trip Across Canada

Two Montreal Youths Commence Journey From Vancouver

Vancouver.—Paul Paquin and Richard Lesage, two Montreal youths, started out recently on what they hope will be a canoe trip across Canada. Their 16-foot canoe was laden with camp equipment and supplies as they pushed off from the recreation pier at English Bay to the far shore of a crowd which had gathered to wish them "bon voyage."

The canoeists plan to travel up the Fraser River to Lytton and from there up the Thompson River to Sicamous, as the first part of their trip. They expect to reach Halifax in seven months.

Would Welcome Naval Reduction

Tokio.—It was learned here that Count N. Sako, Japanese delegate to the preparatory commission on disarmament at Geneva, had been instructed to agree to a proposal whereby a sub-committee would be formed by delegates from the five leading powers to consider proposals of the United States delegate, Hon. Hugh S. Gibson, for broad naval reduction.

Tynside Trainees

Immigrants from Great Britain arriving on board the Canadian Pacific liner "Duchess of Richmond" at Saint John on that vessel's first voyage to Canada. The men, who hail from Tynside, have all been trained in Canadian farming methods under the British Minister of Labor, in co-operation with the Canadian Pacific Railway. They are destined for all parts of Canada.

Battle With Bandits

Detroit Policemen Shoot Assassins In Attempted Hold-Up In Ontario

London, Ont.—Shot in the stomach, Robert Schacht, alleged bandit, aged 20, Windsor taxi driver, and formerly of Yorkton, Sask., died on the highway, following an attempted hold-up of D. McCallan, a Detroit policeman and his wife, who were motoring on a holiday. Leo Derosches, 19, Ford City, Ont., was shot in the hip and lies in a London hospital under guard. A third bandit got away in the darkness.

On a crime cruise in a stolen car, Schacht and his companions crowded McCallan's car into the ditch. Schacht ordered the Detroit policeman to hand over his money. He picked the wrong man. McCallan for an answer ripped out a .32 revolver and fired twice from the hip. Schacht dropped to the road mortally wounded, along with Derosches. The third bandit picked up Schacht and half carrying him, vanished into the darkness.

Plan Second Air Derby

Winnipeg and St. Paul Will Stage Event This Month

St. Paul, Minn.—The second international air derby from St. Paul to Winnipeg was set for May 24 and 25. More than 25 planes are expected to enter this race, according to Julius Perit, aviation secretary of the St. Paul Association. The derby will be held in conjunction with the Canadian aviation meet and aircraft exhibition to be held in Winnipeg on the same dates.

The derby will leave St. Paul, May 24, and will arrive in Winnipeg the following day. The route is expected to take in Fargo and Grand Forks, N.D.

Announcement of the date of the derby was made following the visit to St. Paul of several members of the Winnipeg Flying Club on a goodwill tour to arouse interest in their air carnival.

The first air derby from St. Paul was staged last May as a goodwill tour to Winnipeg.

Canada Had Good Year

League Review Shows Dominion "Enjoying Unprecedented Prosperity"

Geneva.—"Canada enjoyed a year of unprecedented prosperity," says the Review of Economic Conditions in 1928, issued by the League of Nations, as a basis of the work of the consultative economic committee.

North America, the report continues, it seems probable was the continent where trade developed most rapidly. The United States not only maintained its position of the world's leading commercial country but increased its excess of exports over imports.

Postpones Long Flight

Berlin.—Captain Hellmann Koehl, noted German trans-Atlantic flier, noted the Associated Press that his projected flight to the United States with Col. James Fitzmaurice, could not be expected this year and possibly not for another two years.

FAVOR PRINCIPLE OF INSURANCE FOR UNEMPLOYED

Ottawa.—The principle of insurance against unemployment, sickness and invalidity is accepted and endorsed by the special committee of Parliament on industrial and international relations in a report presented by its chairman, Cameron H. Macintosh, Liberal, North Battleford, in the House of Commons. The insurance should not be based on compulsory contributions derived from the state, employer and employees, the report states.

The report continues:

"Your committee recognizes that, while it is highly desirable that such legislation should be uniform in all the provinces, and while social insurance has a federal aspect, nevertheless, according to the department of justice, under our constitution legislative jurisdiction in relation to the establishment of a compulsory system of unemployment insurance is vested exclusively in the provincial legislatures."

"Your committee finds that the provinces, on being consulted by the department of labor with regard to their attitude towards the establishment of a general scheme, do not appear to be prepared to take immediate action."

"Under these circumstances, your committee submits the following recommendations:

"(a)—That with regard to sickness insurance, the department of pensions and national health be requested to initiate a comprehensive survey of the field of public health, with special reference to a national health program. In this, it is believed that it would be possible to secure the co-operation of the provincial and municipal health departments, as well as the organized medical profession."

"(b)—That in the forthcoming census, provision should be made for the securing of the fullest possible data regarding the extent of unemployment and sickness; and that this should be compiled and published as early a date as possible."

"(c)—That the federal government be requested to bring the subject matter of this reference before the next federal-provincial conference, and your committee suggests, when the agenda for such a conference is arranged that the provincial governments be invited to send representatives of the employer and employee to discuss the subject matter of this report."

Prairies Not Represented

Have No Men On This Year's Bisleys Team

Ottawa.—The personnel of the Canadian Bisleys team has been announced from the office of the Dominion of Canada Rifle Association. There are five Toronto men on the team this year. Ottawa comes second with three, while Victoria and Vancouver have two each.

Five riflemen, including two from Hamilton, who won places on the team, have been unable to accept and the five next in order in the Bisleys aggregate, fired during the D.C.R.A. matches last August, will go in their stead. The team sails from Montreal on the S.S. Montrose, on June 12 and will be inspected the day previous.

Those who made the team, but who found it impossible to accept, included Sergt. H. W. Burton, Victoria.

World's Largest Cattle Team

Harlowton, Mont.—The biggest cattle yoke ever made in the Northwest is too small for what is considered the largest cattle team in the world. That was the discovery made by Guy Howard after he completed a seven-foot yoke. Now he's engaged in making a 16-foot yoke which he believes will "beat" the team. The cattle together weigh 7,000 pounds.

Hon. R. B. Bennett Bereaved

Vancouver.—Mrs. H. Weldon Coates, wife of Dr. H. Weldon Coates, and sister of Hon. R. B. Bennett, leader of the Conservative party in Canada, died at her home here following a long illness.

1. P. E. Demers, Northern Electric Engineer in charge of installation and C. W. Oliver, C.N.R. Radio Engineer with two of the large horns used.
2. Dining saloon of the "Lady Nelson".
3. Control apparatus in Wireless Cabin.
4. The "Lady Nelson" in West Indian Waters.

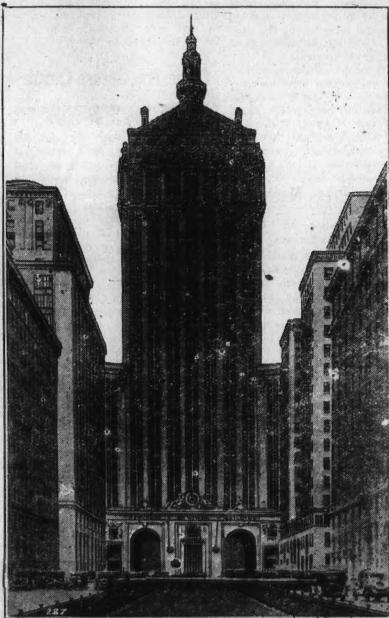

Passengers on board the Lady Nelson and the other units of that fine fleet of new steamers just put into the West Indies service by the Canadian National Railways, as they steam down the highways of the Atlantic Ocean and linger on the shimmering moonlit waters among the Treasure Islands to the South, will now be regaled by entertainment brought to them by Radio from distant or nearby stations. Failing this they need not be without music at their meals or for dancing, since these new floating palaces have been equipped with the latest developments of Radio Science, the Public Address and Music Reproducing System.

This is a system of Amplifiers with controls in the Wireless Cabin and extra high quality loud speakers, capable of accurately reproducing the most delicate shades of musical tone or voice inflection.

This equipment installed by the Northern Electric Company for the five vessels of this new fleet, consists of powerful amplifiers to which are connected for instant use, a sensitive microphone for "picking up" a concert from the Lounge, a Radio Broadcast Receiving Set and a Music Reproducer rendering available recorded music; any one of these systems may be "cut in" at a moment's notice.

A specially designed loud speaker is placed in the Lounge Salon, and high quality cone speakers are located in the dining and smoking saloon. Two large horns such as shown in the accompanying picture are "built in" on the After Boat Deck where dancing may be indulged in.

The Wireless officer who is not on watch, has charge of the apparatus and operates it for the benefit of the passengers at scheduled times throughout the day and late into the night. The volume is controllable from a mere whisper to the fanfare of a whole orchestra.

The Gateway of C. P. R. Connections to New York

At the heart of New York, at 42nd Street is the New York Central Station where Canadian Pacific trains from Montreal and Toronto arrive and depart. The above is a photo of the New York Central building which is a part of the station building and is one of the outstanding buildings in a city of wonderful buildings. Standing almost forty stories high at the head of Park Avenue, it rises well above the high buildings surrounding. It is of gold relieved by brilliant reds and greens and when lit by a battery of flood-lights at night it is one of the features of New York and can be seen for many miles around.

CHAPTER XVIII.—Continued

The rush of wings sounded high in the air as wild ducks passed in swift flight on their yearly pilgrimage to the south. Occasionally a flock would lower in gradually narrowing circles to land with a splash in the restful waters of the lake, then to stretch tired wings, the white bobbing their heads and quacking contentedly. Flocks of geese passed in wedge-shaped formation, their honking coming faintly from a dizzy height. A flock of Arctic swans, skimming so low that the crisp rustle of their wings could be heard, landed in the centre of the lake with a great commotion. There with their beautiful necks proudly arched they floated like white ghosts throughout the night. The red and yellow leaves, like gaudy curtains draped the deciduous trees. The wild crab-apple and high-bush cranberry hung frozen on the naked branches. The sun was

Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—
Evelyn Boonick, 132 Alma Street,
Moncton, New Brunswick.

**Lydia E. Pinkham's
Vegetable Compound**

surrounded by a ring and shone weakly through a misty haze. The unmistakable breath of the north was in the air.

Old John took his traps down from the loft and oiled them. A pitch was found needed to a worn moccasin, and new leathers were inserted in his snow-shoes. "Winter's comin', of tinner, and we're going to have a heavy fall of snow," he mused to himself. For two days Nature gave warning, then on the second night the storm came. A roaring wind came howling from the north, heaving the waters of the lake to foam, tearing at Donald's cabin with the strength of invisible giant hands, and howling through the forest with shrieking walls. Gust came upon gust with increasing strength, and in the short lulls could be heard the swish of the sleety snow against the windows.

The big trees creaked as they swayed in the gale, and with a loud groan, as if in mortal pain, a huge forest monarch, as its roots gave way, fell crashing down the smaller trees to smite the earth with a resounding crash.

The wind went down through the night, but the snow fell steadily. Heavy Donald opened his door next morning he looked out on a new world. The wizardry of frost and snow had given the earth a blanket of white that was eye-blinding in its brilliancy under the bright morning sun. The keen frost had locked the lake light under a coating of clear ice.

CHAPTER XIX.

With a fond hope that he would receive word of the Wainwrights, Donald eagerly awaited the coming of each mail; but after a month of disappointment he became less sanguine, and threw himself desperately into work in a vain attempt to allay his heartache.

During the long winter the mill continued operations in spite of heavy snow, the roads being kept open by the continual traffic.

Janet came twice with gay parties to enjoy the skiing and snowshoeing. She found that she loved Donald, and decided that any uncertainty as to his past was as nothing when weighed against her need of him. Bitterly she reproached herself for allowing her pride to estrange him from her, and with all the arts of a beautiful and cultured woman she sought to regain the power she once held over him.

On one occasion, when Janet mentioned his "wood-sprite," she saw a rap look in his eyes and caught her breath sharply. The very thought of losing him stabbed her like a knife-thrust.

With the coming of March a change came over the earth. Winter shivered and reluctantly loosed his hold. Gentle showers and warm winds from the south honey-combed the ice on the lake; snowdrifts faded away, and the frost-bound soil gave forth earthy odours to replace the keen smell of the snow.

One morning a song sparrow under Donald's window sent out its sweet "chip - chip-cha-char-che-wis-wis," and from the top of a swaying alder a wren carolled his joy of living in full-throated tones that said that spring was here. Stirred by the warmth and cleaving buds, the frog came from the mud, where they had lain dormant all winter, and with swelling throats and bulging cheeks sent out their cheerful "k'tun, k'chunk."

Mists covered the lake, and in an open spot near the mouth of the creek a flock of ducks disported themselves happily. The sun grew higher with every dawn, gaining strength each day until its warming energy spread the beauty of colour and fragrance over all.

One afternoon, when the air pulsed with the song of birds, and newly-opened buds burdened the atmosphere with perfume, Donald walked up the hill to Wainwright's cabin.

Scores of birds, returned from there yearly pilgrimage to the south, flitted about the deserted buildings, but there was no golden-haired girl with a welcoming smile to greet them. Rivulets from the melting snows had gouged channels in the once neatly kept plots of wild flowers, and the roof of one of the smaller huts had fallen in.

Donald pushed open the door of the main building and entered. The air felt chill and dank. He experienced a quick depression of spirits, and his

heart ached as he surveyed the gloomy interior. He shivered as a pack-rat scuttled across the floor and disappeared under Condie's bunk. With a heavy heart he returned to the bright sunshine, sat down, and gave himself over to a period of melancholy retrospection.

His mind went back to his first meeting with Condie, then on through the many thrilling episodes of the summer. She belonged to high mountains, to deep forest glades, to companionship with the birds, flowers and trees of God's wild outdoors. She would never be content with the bad air and the cramped conventions of cities. He suddenly remembered the words she had used that day by the stream near her nest in the cedars. He seemed to hear her sweet, hesitating voice with its pleasant English accent.

"And," she had said, "six months out of every year I'd come right here and live in these mountains."

"She'll come back," he said aloud. The thought cheered him. "She'll come back," he repeated to Andy that night.

"I'll go, Dundie."

A week later, Robert Rennie, accompanied by his daughter, arrived at Summit Lake. The owner was in high spirits. "I am pleased with the excellent work you are doing here," he said, as he placed a hand in friendly fashion on Donald's arm. "The mill is a success—a huge success—and I know who deserves the greater share of the credit!" He smiled up at Donald. "Next week," he went on, "an event of importance to the lumber industry takes place. The Government is to entertain a admit that I was proud when the chief forester called at my office to

party of Eastern lumbermen. I will tell me that this mill had been selected as the most modern and efficient in the Province, and requested permission to bring the Government's guests here.

"They are to stay here a few days, but you will not be inconvenienced, as the train will be equipped with dining and sleeping-cars, loaned for the occasion by the C.P.R. I will come with them, but I am leaving it to you to arrange for their entertainment and to see that everything is in tip-top shape for their arrival."

As Robert Rennie was leaving the next morning he turned to Donald. "By the way," he said casually, "I have decided to add a yearly bonus to your salary, based on the profits of this mill. I have made it retroactive from the time you took charge." Before Donald had time to express his thanks his employer swung aboard the train.

Expressing a desire to be at the lake on the arrival of the excursion, Janet remained.

On the day set for the visit of the Eastern capitalists the sun rose in radiant promise of a typical June day. The leaves were now fully matured, and the willows and maples rustled under the soft, warm winds. All the valley was clothed in a verdant, quivering, gently pulsating life. The long train drew slowly into the depot. Its occupants were filled to overflowing. Robert Rennie, accompanied by a slender man dressed in a tweed suit and cap, pushed his way through the crowd to Donald's side.

Donald greeted his employer, then glanced casually at Mr. Rennie's companion. His eyes widened. "Mr. Wainwright!" he gasped.

Wainwright laughed happily as he wrung Donald's hand.

"Is—is Con—Miss Wainwright with you?" stammered Donald.

Then he saw her.

Auction Sale Of School Lands

Nearly \$400,000 was realized by the auctioning of school lands, all within a radius of forty miles of Regina, the other day. The number of quarter sections sold were 196 out of 381 listed for sale, and the average price realized was \$12.80 an acre, the total amounting to \$398,454.00.

An Oil That Is Famous.—Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far afield enough to attest its excellence, for in all these countries it is on sale and in demand.

Stony Plain Joins Edmonton Senior Amateur B.B. League

Dear Reader, have you ever seen this heading before? Does it mean anything to you? Does it affect you? What does it mean to you, your family, your business, your town, your district?

All men of learning and psychologists agree that every person must love some amusement in between his work; some pleasure outside of his regular working hours. And where can you get more amusement, excitement and fun in the wide open spaces, in fresh air and sunshine, than by playing with a baseball team or by supporting it and cheering it on to victory? Therefore you and your friends should support and help your baseball team in its new undertaking.

The team is to play in Edmonton and many towns during the coming season. Is not your town, your district advertised by your team? Does not your home town receive wider publicity and more recognition as a wide awake town? Does this, furthermore, not eventually affect your business or occupation? Therefore, for the above mentioned reasons every one of us should make it our duty to assist our team in its endeavor during the coming season.

With all shoulders at the wheel, with renewed vigor, with pride in our own team and town, let us all toward our great athletic goal—a victorious 1929 baseball season for Stony Plain.

Lutheran Service in English.

At the Lutheran service in English in Stony Plain Sunday evening, Rev Osterman delivered a fine discourse on the subject of prayer and supplication, taking his text from St John 16, 23-24: "Verily, verily I say unto you, Whatsoever ye shall ask the Father in My name, He will give it to you. . . . Ask, and ye shall receive, that your joy may be full." There was a good attendance of worshippers present. The next English service will be on the evening of May 19th.

Holborn Happenings.

At the reorganisation meeting last week of Holborn ball team, Elmer Anderson, was elected Captain, R. Woodley assistant captain, and C. Kimmery secretary. The team is made up of good players, who are looking forward to a very successful season. Larson Brothers are cropping the Kewley farm this season. Holborn U.F. Local held its regular meeting Saturday night last. Committees were appointed to look after the details of the coming Big Event on May 24th.

Re Inga Municipal Elections.

The Reves of Inga Municipal District has received the following letter from the Department of Municipal Affairs, which might be of interest to some of the Inga ratepayers:—
"R. C. Howe, Esq., Reves M. D. of Inga No. 299, Carrol, Alberta—In reply to your letter of the 6th April, 1929, I cannot find any copy of a letter written by any official of this Department to any person to the effect that the Secretary and two of the Councillors of your Municipality would be dismissed. Such a letter could only be written by the Deputy Minister or myself, and Mr Spence informs me that he has no recollection of having written a communication of this nature. If the Council has reason to believe such a letter is in the possession of a ratepayer of your Municipality we would very much appreciate your obtaining a copy and forwarding it to the Department. However, I am quite certain there is no such letter in existence. Your obedient servant, L. F. GIBBS, Asst. Deputy Minister."

Calendar.

MAY—
10—Agricultural Society meets at 8.30 p.m.
12—Mothers' Day.
17—Billy Disappeared at Wudel's Hall.
20—Clean Up Day.
24—Holborn Picnic.

Stony Plain and District.

IT PAYS TO PAY CASH.

R. B. Brooks was a Monday visitor in Stony Plain. Mr Geo Liebert has purchased a New Studebaker Commander Sedan. Miss Margaret Miller, Wembley, is visiting with friends in Stony Plain. At the baseball game here on May 5th, between the Holborn and Stony teams, the former won by the score of 14 runs to 9. Batteries—Stony—C & Ph Enders p. Rosnan & Lory c. Holborn—Coomb p. French c. Herr Fritz Klammer has moved out to his ranch for the summer.

Pidgeon's Pontiac Garage is now well on the way to completion. Contractor Anderson and his expert carpenters have made a quick job of it.

Gibbons—Stewart

A quiet wedding was solemnized on May 1st, in Edmonton, when Miss Isabelle Stewart became the bride of Bruce M. Gibbons. Rev Dr McQueen performed the ceremony. Following the ceremony, a wedding breakfast was served in the Macdonald, after which the happy couple left by motor on a tour of the South. On their return they will take up their residence in Strathcona. Mr Gibbons will be remembered as a former paying teller at the local bank.

Spruce Grove News

The Councillors of Spruce Grove M. D. met in the Municipal Hall on Monday last, with Reeve McLaughlin in the chair. Next Sunday is Mothers' Day. A sermon appropriate to the occasion will be given at the local Union Church. President Elder of the Tennis Club is arranging to have the local tennis courts leveled off.

The North Star Oil Co. is building a warehouse south of the tracks.

Notices are posted up that the three local elevators will close at noon on Saturdays from May to Sept. 1.

Blueberry Briefs.

What is probably a record for a sheep lapped this far north happened last Friday on the farm of Mr P. Schopp of Blueberry district. One of his ewes gave birth to five lambs, with the mother and her quintet all doing well. Mama is looking after two of her get, while the other three are being raised on the bottle. Peter's herd has always been a prolific bunch, but particularly so since he purchased his present pure bred Shropshire ram.

Clean Up Week

The Board of Health wishes to call the attention of the ratepayers to the general clean up of premises as is done each spring. This year all toilets and outside water closets will be attended to by a scavenger engaged by the Board and paid by council out of town funds. All other refuse, ashes, tin cans, garbage, etc., must be removed by each household at his own expense. Notices are being sent out to householders in regard to this, and it is to be kept in mind that the Provincial regulations provide that in the case of those who have no time, or who neglect to make the necessary clean up, the same shall be done by the Board and charged to the individual. If all property owners will co-operate with the Health Board, we can make Stony Plain one of the neatest towns in Alberta.

Ford

Do You Know?—

That no automobile except Ford selling for less than \$1500.00 has triplex shatterproof glass windshield as standard equipment? That the new Ford Car has 35 ball and roller bearings in the chassis? That when the new Ford is travelling at 50 miles per hour, the revolutions per minute of the motor is only 2077? That the new Ford stands out supreme in its field in mechanical design, specifications, equipment, quality, and precision workmanship? That the service and dealer responsibility behind the new Ford car, all over the world is unequalled by that of any other car built?

"In power, ease of driving, and flexibility, the new McLaughlin-Buick outperforms any car I have ever driven." (name on request)

THE owner quoted above has been driving automobiles for 15 years, and has an intimate knowledge of motor car performance and value. Yet his enthusiastic comment merely typifies that of thousands who have turned to McLaughlin-Buick after making their own exacting tests.

Not only have motorists in all parts of the country accepted McLaughlin-Buick's invitation to get behind the wheel and get the facts about McLaughlin-Buick performance . . . but they have entered orders for more than twice as many McLaughlin-Buicks as any other car at or above its price.

Be sure to drive a McLaughlin-Buick! Try it in traffic—on the straightaway—up the steepest hills. The more thorough your tests, the more careful your comparisons—the more inevitably will they lead you to McLaughlin-Buick! 50-5-22
